

**Packing the 19" Smartview Extend cctv units.**

1. Have the box ready with the top open and the bottom packaging snug to the bottom of the box.

*seepac.com*

2. Grasp unit by the sides with the monitor arm lowered and monitor as pictured before lowering into box.

3. Insert packaging. First, the two pieces that protect the monitor. Second, the piece that protects the top of the unit. Third, the top piece of packaging where the documentation is located.
